

Ageratina altissima white snakeroot

Height: 2 to 4'

Blooms: Sept. to October; white

Light: part sun to full shade

Soil: dry to moist; loam, clay

Note: seeds well

Chesapeake Natives, Inc. © Sept 6, 2013

Allium cernuum nodding onion

Height: 1 to 2'

Blooms: May to July; pink/lilac

Light: full sun to part shade

Soil: dry to moist; sand, loam

Note: rocky slopes, drought and

black walnut tolerant

Anemone canadensis Canadian anemone

Blooms: April to June; white

Light: full sun to full shade

Soil: moist; clay, loam

Antennaria neglecta field pussytoes

Height: 3 to 6"

Blooms: April and May; white

Light: full sun to part shade

Soil: dry to moist; well-drained loam

Host to: American painted lady

Note: evergreen, erosion control

Antennaria parlinii Parlin's pussytoes

Height: 3 to 6"

Blooms: April and May; white

Light: full sun to part shade

Soil: dry to moist; well-drained loam

Host to: American painted lady

Note: evergreen, erosion control

Antennaria plantaginifolia plantainleaf pussytoes

Height: 3 to 6"

Blooms: April to May; white

Light: full sun to part shade

Soil: dry to moist; well-drained loam

Host to: American painted lady

Note: evergreen, erosion control

Chesapeake Natives, Inc. © Sept 6, 2013

Aquilegia canadensis red columbine

Height: 1.5 to 3'

Blooms: April to June; red/yellow

Light: part sun to full shade

Soil: dry to moist; clay, loam

Note: attracts hummingbirds

Chesapeake Natives, Inc. © Sept 6, 2013

Arisaema dracontium green dragon

Blooms: April to June; green

Light: full to part shade

Soil: moist to wet; clay, loam

Note: red berries in fall, showy

Chesapeake Natives, Inc. © Sept 6, 2013

Arisaema triphyllum Jack in the pulpit

Height: 1 to 2'

Blooms: May to July; green/purple

Light: part sun to full shade

Soil: moist to wet; clay, loam

Note: red berries in fall

Chesapeake Natives, Inc. © Sept 6, 2013

Asclepias incanata swamp milkweed

Blooms: May to August; pink

Light: full sun to part shade

Soil: wet; silty loam

Host to: monarch

Note: deep taproot, raingardens

Chesapeake Natives, Inc. © Oct 28, 2013

Asclepias purpurescens purple milkweed

Height: 2 to 4'

Blooms: May to August; purple

Light: full sun to part shade

Soil: dry; clayey loam

Host to: monarch

Note: deep taproot

Asclepias syriaca common milkweed

Height: 3 to 6'

Blooms: May to August; pink to purple

Light: full sun to part shade

Soil: dry; loam, clay

Host to: monarch

Note: spreads by rhizome

Chesapeake Natives, Inc. © Sept 6, 2013

Asclepias tuberosa butterfly milkweed

Height: 1.5 to 2'

Blooms: June to September; orange

Light: full sun

Soil: dry to moist; sand, loam, clay

Host to: monarch

Notes: deep taproot, showy

Chesapeake Natives, Inc. © Sept 6, 2013

Calycanthus floridus Eastern sweetshrub

Height: 6 to 10'

Blooms: April to July; reddish-brown

Light: full sun to part shade

Soil: moist; clay

Note: deciduous shrub; fragrant bark

Chesapeake Natives, Inc. © Sept 6, 2013

Carex glaucodea Blue sedge

Height: 0.3 to 0.8'

Blooms: April and May

Light: part sun to full shade

Soil: moist to wet; silty

Host to: skipper

Note: evergreen

Chesapeake Natives, Inc. © Sept 6, 2013

Cerastium arvense field chickweed

Height: 0.2 to 0.8'

Blooms: March to June; white

Light: full sun to part shade

Soil: moist; loam

Notes: not like invasive chickweed,

groundcover, dies back in summer

Chesapeake Natives, Inc. © Sept 6, 2013

Chasmanthium latifolium Indian woodoats

Height: 2 to 3.5'

Blooms: July to August; green

Light: full sun to full shade

Soil: dry to moist; sandy-loam

Host to: skippers

Note: tan in fall

Chesapeake Natives, Inc. © Sept 6, 2013

Chasmanthium latifolium Indian woodoats

Blooms: July to August; green

Light: full sun to full shade

Soil: dry to moist; sandy-loam

Host to: skippers

Note: tan in fall

Chesapeake Natives, Inc. © Sept 6, 2013

Chelone glabra white turtlehead

Height: 2 to 6'

Blooms: July to October; white

Light: full sun to full shade

Soil: moist to wet; sandy-loam

Host to: Baltimore checkerspot

Chesapeake Natives, Inc. © Sept 6, 2013

Chrysopsis mariana Maryland goldenaster

Height: 1.5 to 2'

Blooms: September and October; yellow

Light: full sun to part shade

Soil: moist; sandy, well-drained

Note: groundcover

Chesapeake Natives, Inc. © Sept 6, 2013

Claytonia virginica Virginia spring beauty

Blooms: March to May; white/pink

Light: full shade

Soil: moist; loamy rich humus

Note: an ephemeral annual

Chesapeake Natives, Inc. © Oct 23, 2013

Conoclinium coelestinum blue mistflower

Height: 1.5 to 2.5'

Blooms: August to October; lilac

Light: full sun to full shade

Soil: moist to wet; loam, clay

Note: aggressive seeder

Chesapeake Natives, Inc. © Sept 6, 2013

Coreopsis verticillata whorled tickseed

Height: 2 to 3.5'

Blooms: June to August; yellow

Light: full sun to part shade

Soil: dry; loam

Notes: slowly spreading; trim

when young; goldfinches

Chesapeake Natives, Inc. © Sept 6, 2013

Cornus racemosa gray dogwood

Height: 6 to 12'

Blooms: May and June; white

Light: full sun to full shade

Soil: dry to moist; loam, clay

Host to: Spring azure

Note: fruit white berry, fall color purple

Chesapeake Natives, Inc. © Sept 6, 2013

Elymus glabriflorus Southeastern wildrye

Height: 2 to 4'

Blooms: June and July; green

Light: full sun to part shade

Soil: moist; loam

Host to: skippers

Note: cool season grass

Elymus histrix Eastern bottlebrush grass

Height: 3 to 4'

Blooms: June and July; green

Light: part sun to full shade

Soil: moist; loam

Host to: wood nymph

Note: not on Delmarva Peninsula

Chesapeake Natives, Inc. © Sept 6, 2013

Elymus virginicus Virginia wildrye

Height: 2 to 3'

Blooms: June and July; green

Light: full sun to part shade

Soil: dry; loam

Host to: skippers

Note: not on Delmarva Peninsula

Elymus riparius wildrye

Height: 2 to 3'

Blooms: June and July; green

Light: full sun to part shade

Soil: dry; loam

Host to: skippers

Note:

Eragrostis spectabilis purple lovegrass

Height: 1 to 2'

Blooms: August to October; purple

Light: full sun

Soil: dry; sand, loam, clay

Host: skippers

Chesapeake Natives, Inc. © Sept 6, 2013

Eragrostis spectabilis purple lovegrass

Blooms: August to October; purple

Light: full sun

Soil: dry; sand, loam, clay

Host: skippers

Eupatorium hyssopifolium hyssopleaf thoroughwort

Height: 3 to 4'

Blooms: August to October; white

Light: full sun to part shade

Soil: dry to moist; loamy-clay

Note: pollinator magnet

Chesapeake Natives, Inc. © Sept 6, 2013

Eutrochium dubium coastal plain joepyeweed

Height: 3 to 4'

Blooms: August and September; pink

Light: full sun to part shade

Soil: moist; loam

Note: was Eupatorium dubium

Chesapeake Natives, Inc. © Sept 6, 2013

Futrochium fistulosum hollow-stem joepyeweed

Height: 4 to 7'

Blooms: July to October; pink

Light: full sun to part shade

Soil: moist to wet; loam or clay

Note: raingarden

Chesapeake Natives, Inc. © Sept 6, 2013

Eurybia divaricata white wood aster

Height: 1.5 to 3'

Blooms: August to November; white

Light: part sun to full shade

Soil: dry to moist; sandy-loam

Note: blooms well in full shade

Chesapeake Natives, Inc. © Sept 6, 2013

Ionactis linariifolius flaxleaf whitetop aster

Height: 6" to 1.5'

Blooms: August to November; blue

Light: full sun to part shade

Soil: dry to moist; sandy-loam

Host: Pearl Crescent larvae

Notes: prefers rocky sandy sites

Chesapeake Natives, Inc. © Oct 20, 2013

Fragaria virginiana Virginia strawberry

Height: 0.2 to 0.5'

Blooms: May and June; white/yellow

Light: part sun to full shade

Soil: dry to moist; loam

Note: spreads by long stolons

Chesapeake Natives, Inc. © Sept 6, 2013

Gentiana clausa bottle gentian

Blooms: August to October; blue

Light: full sun to part shade

Soil: dry to moist; sandy

Note: may be the same species as

G. andrewsii

Chesapeake Natives, Inc. © Sept 6, 2013

Helenium flexuosum purplehead sneezeweed

Height: 1.5 to 3.5'

Blooms: May to July; yellow

Light: full sun to part shade

Soil: dry to moist; sand, loam

Note: overwinters as a rosette

Chesapeake Natives, Inc. © Sept 6, 2013

Helianthus divaricatus woodland sunflower

Height: 2 to 6'

Blooms: July to September; yellow

Light: full sun to part shade

Soil: dry to moist; loam

Notes: spreads by rhizome, trim to

keep compact

Chesapeake Natives, Inc. © Sept 6, 2013

Heliopsis helianthoides smooth oxeye

Height: 3 to 5'

Blooms: June to August; yellow

Light: full sun to part shade

Soil: dry to moist; loam

Notes: also called false sunflower

Chesapeake Natives, Inc. © Oct 30, 2013

Hibiscus moscheutos swamp rosemallow

Height: 3 to 6'

Blooms: July to Sept; pink/white

Light: full sun to part shade

Soil: moist to wet; silty to sandy

Note: raingardens

Iris versicolor harlequin blueflag

Height: 2 to 3'

Blooms: May to August; blue/white

Light: full sun to part shade

Soil: moist to wet; loamy-sand

Note: raingarden; hummingbirds

Chesapeake Natives, Inc. © Sept 6, 2013

Lespedeza violacea violet lespedeza

Height: 1.5 to 3'

Blooms: July to Sept; pink/purple

Light: full sun to part shade

Soil: dry; sandy

Host to: Long-tailed blue

Note:

Chesapeake Natives, Inc. © Sept 6, 2013

Liatris spicata dense blazingstar

Height: 2 to 4'

Blooms: August and September; purple

Light: full sun to part shade

Soil: dry to moist; sandy-loam, clay

Note: vertical structure in the garden

Chesapeake Natives, Inc. © Sept 6, 2013

Liatris spicata dense blazingstar

Height: 2 to 4'

Blooms: August and September; purple

Light: full sun to part shade

Soil: dry to moist; sandy-loam, clay

Note: vertical structure in the garden

Chesapeake Natives, Inc. © Sept 6, 2013

Lobelia cardinalis cardinal flower

Height: 2 to 4'

Blooms: July to September; red

Light: full sun to part shade

Soil: moist to wet; loam

Note: attracts hummingbirds

Chesapeake Natives, Inc. © Sept 6, 2013

Lobelia puberula downy lobelia

Height: 2 to 3'

Blooms: July to September; lilac

Light: full sun to part shade

Soil: moist to wet; loam

Note: attracts hummingbirds

Lobelia siphilitica great blue lobelia

Height: 3 to 4'

Blooms: August and September; blue

Light: full sun to part shade

Soil: moist to wet; sandy-loam

Note: attracts hummingbirds

Chesapeake Natives, Inc. © Sept 6, 2013

Lonicera sempervirens trumpet honeysuckle

Height: climber to 15'

Blooms: June to October; pink/yellow

Light: full sun to part shade

Soil: dry; sandy-loam

Notes: attracts hummingbirds; red

berries; evergreen

Chesapeake Natives, Inc. © Sept 6, 2013

*Mertensia virginica*Virginia bluebells

Height: 1.5 to 2.5'

Blooms: April and May; blue

Light: part sun to full shade

Soil: dry to moist; sandy-loam

Notes: spreads by rhizome; slow

growing from seed

Monarda punctata spotted beebalm

Height: 0.5 to 3.5'

Blooms: June to Sept; purple/yellow

Light: full sun to part shade

Soil: dry; loam, sandy loam

Note: aromatic herb

Chesapeake Natives, Inc. © Sept 6, 2013

Oenothera fruticosa narrowleaf evening primrose

Height: 1.5 to 2'

Blooms: May to July; yellow

Light: full sun to part shade

Soil: dry to moist; sandy

Note: flowers fade in a day

Packera aurea goldern ragwort

Height: 1 to 2'

Blooms: March to August; yellow

Light: full sun to full shade

Soil: moist to wet; loam

Notes: good groundcover

Chesapeake Natives, Inc. © Sept 6, 2013

Panicum virgatum switchgrass

Height: 3 to 5'

Blooms: August and Sept; purple

Light: full sun to part shade

Soil: dry to wet; sandy-loam

Host to: skippers

Note: erosion control, raingarden

Chesapeake Natives, Inc. © Sept 6, 2013

Penstemon canescens

Eastern gray beardtongue

Height: 2.5 to 3'

Blooms: May and June; lilac

Light: full sun to part shade

Soil: dry; loam

Note: red fall foliage

Penstemon digitalis foxglove beardtongue

Height: 2.5 to 4'

Blooms: May and June; white

Light: full sun to part shade

Soil: dry; loam

Note: red fall foliage

Chesapeake Natives, Inc. © Oct 20, 2013

Pseudognaphalium obtusifolium rabbit-tobacco

Height: 1.5 to 2.5'

Blooms: August to November; white

Light: full sun to part shade

Soil: dry; loam

Host to: American painted lady

Note: overwinters as a rosette

Chesapeake Natives, Inc. © Sept 6, 2013

Pycnathemum muticum clustered mountainmint

Height: 1.5 to 3'

Blooms: July to September; white

Light: full sun to part shade

Soil: dry to moist; loam, clay

Note: spreads; erosion control

Chesapeake Natives, Inc. © Sept 6, 2013

Pycnanthemum tenuifolium narrowleaf mountainmint

Height: 2 to 3'

Blooms: June to September; white

Light: full sun to part shade

Soil: dry to moist; sandy

Notes: spreads slowly

Rosa carolina Carolina rose

Height: 1.5 to 3'

Blooms: May and June; pink

Light: full sun to part shade

Soil: dry; loamy-clay

Note: spreads by rhizomes

Chesapeake Natives, Inc. © Sept 6, 2013

Rudbeckia fulgida orange coneflower

Height: 2 to 3'

Blooms: August to Nov; yellow

Light: full sun to part shade

Soil: dry to moist; sandy

Note: hardier than blackeyed Susan

Chesapeake Natives, Inc. © Sept 6, 2013

Rudbeckia hirta blackeyed Susan

Height: 2 to 3'

Blooms: June to August; yellow

Light: full sun to part shade

Soil: dry to moist; sandy

Note: 2 to 3 year perennial

Rudbeckia triloba browneyed Susan

Height: 2 to 3'

Blooms: June to October; yellow

Light: full sun to part shade

Soil: dry to moist; sand; loam

Note: hardy; biennial

Chesapeake Natives, Inc. © Sept 6, 2013

Saccharum brevibarbe shortbeard plumegrass

Height: 6 to 10'

Blooms: August to October; brown

Light: full sun

Soil: moist; sandy-loam

Note: alternative to *Miscanthus*

Salvia lyrata lyreleaf sage

Blooms: May and June; lilac

Light: full sun to part shade

Soil: dry to moist; sandy

Notes: seeds prolifically; substitute for *Ajuga*; overwinters as a rosette

Chesapeake Natives, Inc. © Sept 6, 2013

Sambucus canadensis

American black elderberry

Height: 5 to 10'

Blooms: June and July; white

Light: full sun to part shade

Soil: dry to moist; sandy

Notes: suckering shrub, edible fruit;

shrub

Chesapeake Natives, Inc. © Sept 6, 2013

Schizachyrium scoparium little bluestem

Height: 2 to 4'

Blooms: September and October

Light: full sun

Soil: dry; sandy-loam

Host to: skippers

Chesapeake Natives, Inc. © Sept 6, 2013

Sedum ternatum woodland stonecrop

Height: 2 to 4'

Blooms: March and April; white

Light: full shade

Soil: dry to moist; loam

Note: evergreen

Chesapeake Natives, Inc. © Sept 6, 2013

Silphium perfoliatum cup plant

Height: 4 to 6'

Blooms: July to September; yellow

Light: full sun to part shade

Soil: moist; loam

Note: goldfinches love the seeds

Chesapeake Natives, Inc. © Sept 6, 2013

Sisyrhinchium angustifolium narrowleaf blue-eyed grass

Height: 0.5 to 1'

Blooms: May and June; blue

Light: full sun to part shade

Soil: moist; sandy

Note: dies back in summer and

looks ragged

Chesapeake Natives, Inc. © Sept 6, 2013

Solidago caesia wreath goldenrod

Height: 1 to 3.5'

Blooms: August to October; yellow

Light: part sun to full shade

Soil: dry to moist; loam

Note: spreads well by seed

Chesapeake Natives, Inc. © Sept 6, 2013

Solidago flexicaulis zigzag goldenrod

Height: 2 to 3'

Blooms: Sept and October; yellow

Light: part shade

Soil: dry to moist; loam

Laval host: mainly moths

Note: attracts woodland songbirds
